The game features a playable character named Audrey (CV: Chisato Morishita), a lost child who has no idea how she got into the house. Throughout the game she is collecting objects as mementos, which she believes are relevant to the mystery at hand. Audrey will not only collect items as she explores the house, but also purchase new items to go on her search, such as puzzles that she can solve with the items she collects. The story of Dear Brother is entirely up to player discretion. Players will be able to explore the house and solve puzzles to help Audrey explore her memories and thus, find out what is happening to her. How will you react to the scenes you witness? Will you be able to solve the puzzles and reach the ending? Let's explore the house together! - - - - -
